

Getting Started For Riders - Guidelines

Overview

The Learn to Ride/Drive Programs are self-paced and student/coach led; Horse Council BC membership is not required to begin participating in this program, however a valid HCBC membership and or other P/TSO membership is required when the rider is being tested. HCBC recommends that all riders hold HCBC membership yearly.

Setting the date, time, and location of exams is done by the examiner, instructor/coach & student. It is recommended that participants purchase corresponding manuals, and work with an NCCP Certified Equestrian Instructor/Coach in their respective discipline for preparation in working towards completing the applicable rider/driver level exams. The cost of this program may vary depending on the instructor/coach helping with preparations, and depending on the examiner doing the testing. While HCBC does not regulate the fee that instructors/coaches and examiners charge for their time, it is recommended that this fee does not exceed the cost of a regular hourly lesson fee for each hour spent testing.

Getting Started

1. Riders must purchase a current year HCBC membership or prove current membership in another P/TSO.
2. It is highly recommended that riders also purchase the corresponding Learn to Ride/Drive Manual(s) as well as the Stable Management in Canada handbook. Manuals can be purchased at the HCBC online or office store.
3. Riders should download all program resources including rider rubrics, addendums, study guides and policies -- and review in detail.
4. Riders should then look to connect with an NCCP Certified Equestrian Instructor/Coach from the online HCBC Find a Coach search engine to start taking riding and theory lessons with the selected individual. Riders should communicate their desire to participate and learn from the Learn to Ride/Drive programs so the instructor/coach is familiar with their goals.
5. Once connected with an NCCP Certified Equestrian Instructor/Coach, riders should progress in working through the rubrics and manuals, as well as their regular riding lessons, to help develop and progress their skillset.
6. At the discretion of the regular instructor/coach, and once said instructor/coach feels riders are ready to be evaluated, testing may be arranged with a qualified examiner. Examiners are to be contacted directly by the rider and/or their instructor/coach to set up testing dates and locations. In some cases, the regular instructor/coach may be a qualified examiner; in such case, testing can be conducted this way, up to certain levels.
7. Testing dates are determined between the rider, their instructor/coach, and the examiner.
8. Upon completion of rider/driver level testing, results are submitted for processing to the AEF office by the examiner within 30 days of the testing date.
9. Payment to HCBC is \$21.00 for each complete test and should accompany the testing papers.
10. Rider/driver level certificates and badges are issued by mail directly to candidates upon submission of successful results. Certificates and badges may take up to 30 business days from date of receipt within the office to be processed. Inquiries regarding status of certificates must be directed to the examiner, or the HCBC office info@hcbc.ca
