Horse Council BC (HCBC)

is recognized by the Government of British Columbia as the official organization for Equestrian Sport in BC.

Every eventuality cannot be provided for in these rules.

It is the duty of the officials and the competition management to make informed decisions in a fair and sporting spirit, approaching as near as possible the intention of these rules, and in doing so protecting the reputation of the sport and the welfare of the horse.

All Competition Organizers hosting HCBC sanctioned competitions, should be familiar with the HCBC rules and policies and should have copies available for the use of exhibitors, parents, volunteers and officials. At no time are Equestrian Canada Rules to be used at a Provincially sanctioned competition.

The HCBC Rules are reviewed annually and posted on the HCBC website. Submissions for recommended rule changes will be considered until October 1st annually and reviewed for inclusion to the next years' rule book.

Aims Goals and Objectives

To ensure that Competition Organizers have the tools and support they need to operate within the recognized sport framework, follow current safety rules and guidelines and be aware of the risk management that is necessary and of the utmost importance for hosting a well-planned, successful competition.

To provide HCBC sanctioned competitions the support and governance of the current Horse Council BC Rule Book.

To develop, grow and retain a deep pool of well-educated and knowledgeable officials.

To capture the activity that demonstrates the value of Equestrian Sport to the government at all levels.

To provide, through education, participation in a quality structured, grass roots competition system and a well-planned development pathway, a feeder system that will grow and strengthen the development of the discipline sports and equestrian athletes.

To align with Long Term Equestrian Development (LTED)

Horse Council BC welcomes and encourages all grass roots and entry level competition organizers to sanction their show with HCBC. By doing so the equestrian sport community in BC can work together to ensure a fun, affordable environment within a fair playing field that will aid towards the growth and success of Equestrian Sport in BC.

Horse Welfare Statement

Horse Council BC members are responsible for the well-being and humane treatment of any equine entrusted to their care. Every horse at an HCBC approved event shall, at all times, be treated humanely and with dignity, respect, and compassion. The welfare of the horse is paramount. Any inhumane treatment or the abuse of a horse by any person at an approved HCBC show is forbidden. The obligation and responsibility to handle horses you own, use or that are in your care, with skill and compassion ensuring, regardless of value that they are not subjected to abuse, neglect or mistreatment. Horses used in competition, spectator events, shows, or exhibitions must not be subjected to unscrupulous use of medications, non-nutritive agents, equipment or procedures that may alter performance, appearance or natural function.

The standard by which conduct, or treatment will be measured is that which a person who is informed and experienced in generally accepted equine training and competition practices would determine to be neither cruel, abusive, nor inhumane.

It is recommended that competition management publish a statement in their show program regarding the commitment to humane treatment of horses with the penalties to be imposed for confirmed abuse of horses at a recognized event.

1. All forms of cruel, inhumane or abusive treatment of Horses, which include, but are not limited to various forms of rapping, are strictly forbidden. and will result in elimination

- Rapping:

The term “rapping” is construed to include all of the artificial techniques intended to make the horse jump higher or more carefully in competition. In general Rapping consists of the Rider- and/or dismounted assistants, (for whose behavior the rider is responsible) - either hitting the horse’s legs with something (no matter with what or by whom) or deliberately causing the horse to hit something itself, whether by building obstacles too large and/or too wide, setting false ground lines, placing trotting poles or the elements of a combination at a false distance, intentionally pulling or pushing the horse into an obstacle or otherwise making it difficult or impossible for the horse to negotiate the practice obstacle without hitting it. In the case of rapping or any other abusive schooling practice within the period of jurisdiction of the Competition Management and Provincial Rules Official, the competitor and the horse concerned will be disqualified from the competition with the possibility of being asked to leave the competition grounds

- Excessive use of the whip:

- The whip may not be used to vent an Athlete’s temper.
- A Horse should never be hit with a whip more than three times in a row.
- The horse’s skin should never be broken due to excessive use of the whip
- The whip is not to be used after elimination

- Excessive number of classes: typically, no one horse should do more than five classes in one day.

Bio Security

It is strongly recommended that horses be up to date on vaccinations and in good health to perform.

Vaccinations offer horses protection from some infectious diseases, but do not eliminate disease risk. Vaccination guidelines vary by region. This should be taken into consideration when weighing the risk for exposure. While there are costs associated with vaccines, those costs are generally much lower than the costs associated with an infectious disease.

Show management has the right and duty to demand removal of a horse from the grounds if it is deemed unfit to compete. Competition management may enforce vaccination requirements for their competition or venue.

A request for supporting documentation confirming a horse's compliance with mandatory vaccination requirements is an acceptable condition of entry.

For more information on bio security practice please visit <https://hcbc.ca/equine-welfare/biosecurity/>

 - Timing will start when the nose of the equine crosses the Start gate or 60 seconds after the judge's signal.
 - Each competitor will drive the course and after crossing the Finish line will immediately continue to drive the course a second time in one continuous go.
 - Timing stops when the nose of the equine crosses the Finish gate.
 - Two timers are required for this competition option.
 - If a competitor dislodged any part of the course on their first go, the whistle (or bell) will be sounded, and the competitor will stop after crossing the Finish line. The competitor must return to the start line and wait until the course has been rebuilt. The judge will then restart the competitor. No time penalties are incurred for the reconstruction period.
- Two-Part Marathon
 - The judge will signal the competitor with a bell or a whistle to start the course.
 - Each competitor will complete the course. After all competitors have driven the course, Obstacles 1 and 2 are then relettered in a different configuration and become Obstacle 3 and 4 and the course is driven again by each competitor.
 - Timing will start when the nose of the equine crosses the Start gate or 60 seconds after the judge's signal.

- Minutes will be converted into seconds and then combined, e.g. 1:20.56 becomes 80.56.
- To obtain the total time penalties for marathon phases with more than one round, converted times are added together and multiplied by 0.25, e.g. $80.56 + 79.45 = 160.01 \times 0.25 = 40$ penalty points.
